

PUBLIC NOTICE

TOWNSHIP OF GUELPH/ERAMOSIA WATER MAIN CLEANING PROGRAM

The Township of Guelph/Eramosa will be conducting its spring controlled flushing of Rockwood and Hamilton Drive water mains beginning Monday April 22nd and should be completed by approximately Monday May 31, 2013. This process takes place to reduce the likelihood of residents experiencing discoloured or brown water. Regular flushing is an important component of a comprehensive water management program. The Township of Guelph/Eramosa flushes water mains annually to remove accumulated sediment in the distribution system.

All residents should be aware that cleaning activities may create temporary instances of discoloured water. While drinking small quantities of discoloured water is not likely to cause health risk, it is recommended that residents wait until water clarity returns to normal before consuming water. It may be necessary to run your cold water tap only (not hot) for a short period of time and possibly remove and clean the tap screen.

Please visit our website at www.get.on.ca for “frequently asked questions” regarding our water main cleaning program.

Should you have any questions, please contact our Operations Centre at (519) 856-9596 ext. 122. Your understanding and co-operation is appreciated.
