FIR Reference: (Schedule, Line Column)	Minister's List #	Local Government	2013	2012	2011	2010	2009
91 0206 35	1.1 a)	Operating costs for governance and corporate management as a percentage of total municipal operating costs.	17.4%	16.4%	22.4%	16.8%	18.9%
91 0206 45	1.1 b)	Total costs for governance and corporate management as a percentage of total municipal costs.	12.9%	11.9%	15.8%	12.2%	

CONTACT PERSON: Linda Cheyne, Director of Finance

REFERENCE:

- The formulas for efficiency measures were revised in 2009 to reflect changes in the reporting of expenses consistent with accrual accounting concepts. New total cost measures were introduced and revised in 2010. Total costs mean operating costs as defined in MPMP, plus amortization and interest on long term debt, less revenue received from other municipalities for tangible capital assets.

CONTACT PERSON: Linda Cheyne, Director of Finance

REFERENCE:

- In 2013, the formula for the denominator of the MPMP efficiency measures for building permits and inspection services was changed to a three year average for total construction activity, divided by \$1,000. Also in 2013, effectiveness measures were introduced that record the number and percentage of complete and incomplete building permit applications, by category.

CONTACT PERSON: Linda Cheyne, Director of Finance

REFERENCE:

- The formulas for efficiency measures were revised in 2009 to reflect changes in the reporting of expenses consistent with accrual accounting concepts. New total cost measures were introduced and revised in 2010. Total costs mean operating costs as defined in MPMP, plus amortization and interest on long term debt, less revenue received from other municipalities for tangible capital assets.

- ¹ The formulas for efficiency measures for paved roads were revised in 2010 to net out revenue received from utilities for utility cut repairs.

- ² Pavement condition is rated using a Pavement Condition Index (PCI) such as the Index used by the Ontario Good Roads Association (OGRA) or the Ministry of Transportation's Roads Inventory Management System (RIMS).

- ³ A bridge or culvert is rated as being in good to very good condition if distress to the primary components is minimal, requiring only maintenance. Primary components are the main load carrying components of the structure, including the deck, beams, girders, abutments, foundations, etc.
