

UPDATE

Fish Habitat Work Day

The Fish Habitat Work Day took place at Marden Creek on Saturday, July 14, 2007. This project was organized by [Trout Unlimited Canada](#) (Speed Valley Chapter) and the [Wellington County Stewardship Council](#) with the [Township of Guelph/Eramosa](#) hosting.

As a result of an excellent level of community participation, the Fish Habitat Work Day was a great success. Silvia and Derek arranged to have this initiative documented by the video crew at "[The New Fly Fisher](#)".

Larry Halyk, Stewardship Coordinator for Wellington County Stewardship Council, extends his gratitude to **everyone** who worked so hard to improve Marden Creek.
