

Shared Tower

Site compliance

Maximum RF exposure with respect to the uncontrolled environment limit

Maximum simulated exposure on this site from (O)perators :

4%

Maximum simulated exposure on this site from (B)roadcasters :

0%

Maximum total simulated exposure on this site O+B :

4%

Final result

The site is **compliant** with the maximum exposure limits established in Health Canada's Safety Code 6 for **uncontrolled environment**.

N/A

The site is **compliant** with the maximum exposure limits established in Health Canada's Safety Code 6 for **controlled environment**.

I hereby certify that this report was completed using appropriated methods; that the information contained herein is exact to the best of our knowledge and that compliance with Safety Code 6 limits in each section of the site is as described above.

Shared Tower

[STC0455-14]

RF simulation result

The analysis shows that the RF levels at 2m above the nearest buildings rooftops RF levels would not exceed 4% of the uncontrolled environment limit. Levels 2m above the ground would not exceed 4% of the uncontrolled environment limit. The site is therefore compliant with the uncontrolled environment limit.
